References for the English Electric KDF9 computer.

Since 2007 there has been a renewed interest in KDF9 software archaeology. This has resulted in a great deal of emulation activity and the placing on-line of impressive amounts of original documentation. Refer to http://sw.ccs.bcs.org/KDF9/ where links will be found to much useful KDF9 source documentation, working software, photographs and KDF9 reminiscences.

Then, this is Brian Wichmann’s stuff which, amongst other things contains photos and reminiscences: http://sw.ccs.bcs.org/KDF9/Wichmann/index.html
